

CITRA Insight

IT Asset Intelligence Platform

If It's Installed, CITRA Knows.

1 Machine	51 Software	0 Findings	100% Compliant
-----------	-------------	------------	----------------

Know what's installed. Know what's licensed.
Know what an auditor would find — before they do.

Starting at **■199 per system/month** | Free 7-day trial | No credit card required

app.citrainsight.in

What CITRA Insight Does

Software Discovery

7-layer detection: registry, filesystem, PE headers, processes, piracy signatures, ghost artifacts, and DLL integrity checks.

Piracy & Compliance Detection

200+ forensic signatures detect cracks, activators, tampered DLLs, KMS emulators, and ghost artifacts from deleted tools.

License Management

Installed vs licensed reconciliation in INR. Per-product risk scoring, shortfall detection, and purchase recommendations.

Hardware Inventory

CPU, RAM (per-DIMM), disk (SSD/HDD + S.M.A.R.T.), GPU, BIOS serial, motherboard, VM detection. Auto change alerts.

Continuous Monitoring

24x7 delta scanning. Battery-aware throttling. Online/offline heartbeat. Automatic retry queue for offline machines.

Audit-Ready Reports

4 PDF reports (Compliance, Hardware, Findings, Executive) with SHA-256 integrity hashes and watermarks.

Financial Risk Dashboard

Total liability in INR, per-machine exposure, ROI calculator, 3-year TCO projection, CFO-ready finance view.

Role-Based Access

Super Admin, IT Admin, Compliance Officer, Auditor roles with granular permissions and full audit trail.

How It Works

1. Sign Up

Create an account at app.citrainsight.in. Free 7-day trial, no credit card.

2. Deploy Agent

Install the lightweight agent on Windows machines. One-line PowerShell command.

3. First Scan

Within 5 minutes, hardware inventory, software list, and compliance findings appear in your dashboard.

4. Act on Insights

Review findings, generate reports, remediate risks, and track compliance improvements over time.

Pricing

■ 199 per system/month (annual billing). Volume discounts available for 100+ systems.

Every plan includes: unlimited scans, all 7 detection layers, PDF/CSV reports, dashboard access, email alerts, DPDP Act compliance.

Security & Privacy

- x Never reads files, emails, or passwords — only software metadata
- x Never reports to software vendors — your data stays yours
- x Never slows down machines — battery-aware, CPU-throttled
- x Never acts without admin approval — read-only agent

DPDP Act 2023 compliant | GDPR aligned
